**Course Title** | **Computer Based Statistics for Behavioural Sciences II**
---|---
**Level of Course Unit** | Undergraduate
**Semester** | 4
**Number of ECTS Credits** | 5
**Language of Instruction** | English
**Type of Course Unit** | Compulsory
**Course Unit Code** | PSI208E

**Course Content**
Statistical analysis of research data by using appropriate basic statistical package program in tabulating and interpreting the data and writing the results are practiced in this course.

**Name of Lecturers**
Contact

**Department / Program** | Psychology

**Recommended or Required Reading**

**Assessment Methods and Criteria**
Midterm40%+Final Examination60%=100%

**Objectives of the Course**
The aim of this course is to provide the applications of basic statistical techniques and tests in computer environment

**Course Learning Outcomes**
To be able to read the outcomes of statistical analysis to interpret results and to convert the results into tables
